DETAILED ACTION

Applicants' response was received July 3, 2006.

- Claims 2-7, 11-13 and 18-26 are rejected.
- Claims 5-7 are objected to.

Application pending.

Response to Amendment

Applicants' arguments/amendments with respect to claims 2-7, 11-13 and 18-26 filed July 3, 2006 have been received. All arguments have been fully considered. The Examiner would like to point out that this action is made final (See MPEP 706.07a).

Applicants have not addressed the rejection under 35 USC 112 made in previous office action. Therefore that rejection stands and all pending independent claims have the questionable limitation that is explained in 35 USC 112 rejection. Furthermore, there is no outstanding art rejection on the remaining claims. In the process of amending the claims, Applicants have introduced minor informalities in claims 5-7 which are pointed out herein below as well.

Claim Objections

Claim 5 is objected to because of the following informalities:

- There is an extra period in the claim after the limitation, "...with the selected predefined redundancy..." which should be deleted.

Appropriate correction is required.

Claim 6 is objected to because of the following informalities:

- There is an extra period in the claim after the limitation, "...with the selected predefined redundancy..." which should be deleted.

Appropriate correction is required.

Claim 7 is objected to because of the following informalities:

- There is an extra period in the claim after the limitation, "...with the selected predefined redundancy..." which should be deleted.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-7, 11-13 and 18-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 2133

In all of the independent claims, the term “**predefined redundancy**” is indefinite because the adjective, “predefined” describing the noun, “redundancy” which is a relative term. Meaning, the way that this term is used is in time order. In other words, the Examiner is not sure with respect to what is it predefined. Is it defined prior to transmission? Prior to encoding? What is the predefined redundancy, quantitatively, or from what is it being selected? Applicants are invited to clearly word claim language.

Conclusion

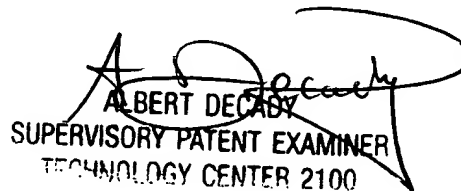

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
